Richard Woods of Salisbury 1667
must have been at least 21 years
old. He died 1691 living in
Piscataway, leaving a will sons
Joseph & John.

The Counterpart Richard
married 1725 when he was probably
21. The argument is against the
1st Richard being his father.

The next question is whether Richard
1st had any other sons than Joseph & John.
The strong presumption is against it
unless he left a posthumous child.
This might show in the deeds. If
John & Joseph were the only sons then
some daughter could have had an
illegitimate son Richard or John
or Joseph could have had such
a son.

Joseph died 1724 leaving nine children
Siles, Joseph, William, James &
Samuel were sons.

John did not leave a will before 1730

Consequently the Nantuxet Richard
could have been a son of either of the
above sons

Probably the Mother of the
Nantuxet Richard was Priscilla
or ~~Sarah~~ Eunice.

Richard North 1706-1762. May have
been born before 1706. Probably was.

Comment on Note *1559. "Gerer," July 29, 1914. Observing your note concerning New Jersey families I write to ask if the following families would interest you? Richard Aleson, Quaker, born in Burlington, N. J., married about 1690. Thomas Hilborn, Quaker, married Elizabeth, daughter of Samuel Hooton, 1688. All of New Jersey. Also Caleb Shreeve of Burlington.

This was a reference to my compilation, now under way, concerning the "First Settlers of Piscataway and Woodbridge,

New Jersey"—possibly, later, to include those of Elizabethtown, N. J.

Preliminary articles have been running since June of 1914 in the columns of Jersey Genealogy, Newark Evening News. This has been for the purpose of inviting suggestions and criticisms concerning the genealogical data presented so as to secure the greatest accuracy in the compiled matter.

This work is of interest to searchers in New England genealogy, for many of the Piscataway and Woodbridge families originated in New Hampshire, Massachusetts and Rhode Island. Therefore, it will interest the readers of the Genealogical Department of the Transcript to note that the following are the names of the greater part of the first settlers of Piscataway. Those of Woodbridge will be presented later.

Space will not permit further account, but I will say that I trace the Lamberts down fifteen generations to Elizabeth Lambert, who married Thomas Lyman, ancestors of the Lyman family in New England. The crest of the Barden coat of arms is a demi-youth holding over his shoulder a broken axe. Why the broken axe?
